

**RICOH Interactive
Whiteboard D2200**

Change the way you collaborate.

We know you need the flexibility to present your ideas wherever you are. And collaboration and interaction are more important to you and your audience than ever before. The Ricoh Interactive Whiteboard D2200 gives you the option to set-up anywhere, and its mobility means it's ideal for small workgroups. The strongest feature is the capability of remote collaboration between Interactive Whiteboards and Smart Devices via Bluetooth, HDMI and Display Ports. So show your thinking and get your ideas across quicker.

- At only 22" in size, it can be placed flat so multiple users can write simultaneously, perfect for flexible working
- Unique and simple to use for easy editing, saving and sharing of information
- Quick connectivity to Interactive Whiteboards and Smart Devices allowing you to collaborate with the presentation
- More interaction thanks to an embedded camera and speaker to allow video conferencing
- No software installation, so it's ready to go with one touch

A mobile canvas for your ideas.

Make the right connections.

The Ricoh Interactive Whiteboard D2200 has been designed to help you develop and share your ideas with the widest possible audience. And thanks to its unique user interface and portability, your presentations will be more collaborative than ever. So if you need an Interactive Whiteboard to help you connect to small groups in a flexible way, this will not only help you reach out but also extend your capabilities.

Your Smart Devices just got smarter.

Now you can connect with other Interactive Whiteboards to offer a seamless experience, but what's really impressive is you can also connect to Smart Devices for sharing or live editing remotely. Your ideas and presentations benefit from being more interactive – and there's never any downtime, so engagement is highly increased.

Do more. Share more.

Thanks to its quick set-up and because it's so easy to use, you can utilise other features to really make an impression. Add a video connection and use the whiteboard-share function for remote presentations. So if there are no meeting rooms available or you just want a different setting for your ideas – you can still get your message across.

RICOH Interactive Whiteboard D2200
